

Firefly Watch Program

May 20, May 27

4:30 p.m. – 10 p.m.

\$30 per person

\$60 per family of 3 or more

Stay out late on Hobcaw Barony as you learn all about fireflies and assist in an amazing field study! Beginning with an informative workshop, we'll also take a stroll through the property viewing different habitats and taking soil samples. Dinner will be provided in the comfort of our screened in shelter, then it's back to the field at dark to watch and record the fireflies' magic flashes. We will be in the field, so be sure to wear field clothes (long pants, tennis shoes or boots, etc.) and bring sunscreen and bug spray!

Weather dependent! We will collect contact information upon signup and reschedule if rain becomes an issue

To make your reservation, please call the Hobcaw Barony Discovery Center at 843-546-4623 or email us at hobcaw@belle.baruch.sc.edu
